HOW OFTEN do catalogs change? A new course catalog comes out every year and there may or may not be curriculum changes in your major/option.

WHY do course requirements sometimes change with a new catalog? Generally, to keep up with the changes in skills required in the marketplace and pre-requisites for professional/graduate schools.

WHY SHOULD I CARE about these changes? It may shorten your time to graduation and/or improve the background and skills critical for the job you hope to have following graduation or important for the professional/graduate school you hope to attend.

WHAT MAJOR/OPTION IS CHANGING IN THE 14-15 CATALOG?

Athletic Training: No changes

Kinesiology Health Major:
- Community & Public Health – YES (see below)
- Exercise Science – YES (see below)
- Physical Education – YES (see below)

Pre-Health Professions:
- Chiropractic – no changes
- Dentistry – no changes
- Human Medicine – YES (see below)
- Occupational Therapy – YES (see below)
- Optometry – no changes
- Physician Assistant – YES (see below)
- Physical Therapy – YES (see below)

WHAT SHOULD I DO?
1) Carefully review the information below to better understand catalog differences.
2) Review the new 2014-15 Four Year Plans.
3) Ask your adviser to clear up any questions you have regarding these changes.
4) If you do want to change to the 2014-15 Catalog, complete and submit the Catalog Choice Form by May 1st.
